

# Protect the American Dream

## Why Should I Be A Direct Giver?

You could be out of business if you aren't! Together, as a team, the National Association of REALTORS® (NAR), the Wisconsin REALTORS® Association (WRA) and the Ozaukee REALTORS® Association (ORA) have stopped proposals that would have made it harder for you to conduct your business and taken money out of your pocket. With your help, NAR, WRA, and ORA have accomplished a great deal through the election of responsible public officials, the monitoring of legislative and regulatory bodies at all governmental levels, and the establishing of fiscally responsible, commonsense public policy.

## What Have Your RPAC/Direct Giver Dollars Accomplished?

- Rejected Transfer Tax Increases
- Kept Banks out of Real Estate-Gained a Two Year Moratorium
- Retained Mortgage Interest Deduction
- Prevented new Impact Fees
- Local Sign Ordinance Continually Monitored

### How the Direct Giver Program Works

The Direct Giver serves as a personal donation "checking account" for individual members. The account is established and remains under your name.

Contributions to federal, state and local candidates are distributed on a Direct Giver Check. Each contributor is individually listed with an accompanying cover letter to the candidate's campaign.

The advantage is both you and the REALTOR® organization are recognized for your contribution. It's like getting twice the bang for your buck!
